# Performance Flex Blue vs. Lehigh Valley Flex Blue

The **Performance Flex Blue** product has leveraged local collaborations across the state, including **Lehigh Valley Flex Blue**, to create one cohesive statewide solution.

## PERFORMANCE FLEX BLUE FOOTPRINT

**Performance Flex Blue** is a good fit for those who have membership disbursed across the state.

## LEHIGH VALLEY FLEX BLUE FOOTPRINT

**Lehigh Valley Flex Blue** is a more regionally based solution and is better suited for smaller clients who have 50% or more membership in the Lehigh Valley Flex Blue footprint.

# Flex Blue and Lehigh Valley Health Network

Teaming up to change health care

## Delivering the right care at the right time

Securely sharing data to more precisely tailor care to the individual patient

## Fewer tests, improved results

The True Performance program pays doctors for value of care over volume **reducing ER visits by about 20% and, hospital admissions by about 17%\***

## Innovative coverage options

A multilevel benefit design provides more value over other broad network plans

## A high-quality network close to home

Access to award-winning care, plus other expert doctors and hospitals in the community

## Making it personal

Highly personalized care for those with complex conditions, with a care coordination team to help with scheduling appointments, and navigating medications and treatments

\* Results based on potentially avoided costs due to lower rates of emergency department utilization and hospital admissions from January 2017 through July 2018 for primary care physicians in Highmark's True Performance value-based reimbursement program.
